This is work is combeted in the spirit of Littelly drussem of Poreign literature, (which was favorably received by the public for twenty years,) but as it twice as large, and appears so often, the editor not only gives spirit and freshment to it by many thingswhich were excluded by a mande's delay, but while the sected in the sequence great control of the favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshment to it by many thingswhich were excluded by a mande's delay, but while the sected in first sequence greater and more attractive surfact, as fully to satisfy the wants of the American reader.

The colaborate and refelly Essays of the Edinburght Quirterty and the features of the Edinburght Quirterty and the continuous of the sequence, listscay, and Common Life, by the segacions Spectator, the space of the Edinburght Quirterty and the continuous thereof Common Life, by the segacions Spectator, the space and industrious Limary Cazetto, the sensible and comprehensive Britamia, the suber and respectable Christian Observer; these are intermised with the Military and Naval reminiscences of the Dublin University, New Monthly, Fractor, and the less not consider it becauth his dignity to borrow with and of Chamber's adminished Journal. He dees not consider it becauth his dignity to borrow with and of the markey and have the thinks it good enough, makes use of the those of the

wit and wistom from Punch; and, when he thinks it good enough, makes use off the thusder of the Tunes.

The steamship has konght Europe, Asia, and Africa, into our neighborhoud; and will gently multiply our connections, as Merchauts, Tenveliers, and Politicians, withall parts of the world; so that much more than over it now becomes every intelligent American to be informed of the condition and change of foreign countries. And this not only became of their meater connection with our-elves, but because the nations seem to be hastening, through a tapid process of change; to some new state of thrugs, which the merely pojicical prophet cannot cospate or foresee.

Congaphical Discoveries, the progress of Coltonizaton, [which is extending over the whole world], and Voyages and Travels, fifted favorite matter for his selections; and, in general, the editor systematically and very fully acquirints his readers with the great department of Poreign of Lies, without neglecting are own.

While the Living Age is desirable to all who to keep themselves informed of the rapid progress of the invenement—to. Stutesmen, Diviner, Lawyers, and Physicians—to men of latiness and men of lesiner—it will be turned to equally attractive and useful to their wives and children. It is indispensable to every well-informed family. We say indispensable to be a well-be and the control of the new fundament. The mental and moral appetite must be gratified.

By "warming the wheat from the chaff," by providing abundantly for the inagination, and by a large collection of Biography, Voyages and Trave et. History, and more sold matter, a work is produced, well calculated for mice and popularity, and to raise the standard of public tarte.

This everlent wark is published every Satured.

contect, well calculated for miners at popularity and to mive the seandard of public faste.

This execularity of public faste.

This excellent work is published every Saturday, by E. Lettelle, & Co., Boston, who supply orders by mail from all parts of the country. He mail the mail to that amount. Each meater makes a headsone pamphlet of 43 pages dockle cell ordays. Price, 12 1.2 cts.—or by the year, vix dollars. We add to our own recommendation, what our reades will value infinitely more, a later from the late Extra infinitely more, and in Europe and this country, this has appeared to me to be the most useful. It contains indeed the reposition only of the current literature of the lanear unind in the utmost expansion of the present age.

Consumption is the great cursu of our morthern of itude. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its health fittleten into a few serveity, and the eyo of its brilliancy. It wastes the form, dious the intellect, and plunges its victim into an early grave. The rong and old, the serious and the goy, the city folks and the country bes, are alike its prey well its victims. Blessings on the man, then, whose goins and research fundshed to weapons to hid define to this "Ducker of the Threfield!" He nearly the applicate and guatitude of ages—he shall have ones, at least.

WHOURTH STRILLY VENETABLE, PHILES BY GAR FROSTED INTEL PROPERTY OF this popular Family Medicine drankful for the extensive and inchasting favor with which it is received, and feeling desirous of making every improvement in this power, begs foeve to amongue, thatch has added an OUTSADE, FROSTENG to the pills, or you Witte Sugar, whereby repaything disagrees to the madded the could be generally for moved, without in the maddest degree affecting, in after respects, the excellent qualities of the midding.—The want of an impocent and contraint measure of disagrizing the Pills, so generally felt, is thus supplied, and it is confidently anxietyated that the freeting will prove highly acceptable to the public. of disguiring the Pills, so generally felt, is thus supplied, and it is confidently materiated that the freeling will prove highly accorptable to the public. The occasional are of the licine is a matter of necessity with the great analysity of mandriad. Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of Wright's Indian vegentile Pills is well understood. Insocent and efficacious, free from miticals of levery dose riptim, and adapted to the circumstances and condition of life, they are externed beyond all other remoties, as the greatest family modified of the day. The frost-covering is an addition intended merych correct the fast and small. These Pills will also rentime to the prepared without the froating, as heretofine, so that all who purfer them in their original state, may still be accommodated.

General intercritis.—The ordinary dose for a grown person is from two to four Pills; but masses of vinture pain, in any part of the day, the medicine should be taken in large doses, and reference with a man going to bod, (or offering in the saffering is great.) mith pain, or distress of every kind is removed; after which, the medicine should be taken togetly with a view to keeping the blowly to a state of sourch leadth.

HAYRAU'S RETREAT.-This is a strange world. The tyrant women-flogger o Austria was taught a lesson of Liberty by men who are not the slaves of Barcley & Co., but, probably, of Barcley & Co.'s beer. Barcley & Co. were doubtless mortified and indigment at the insult of fered to their distinguished guest, but they themselves were in some measure the slaves of their work men, or rather of their interests, and had to keep quiet They are immense gainers by doing so All England is now drinking healths in the liquid of Barolay & Co.'s brewing. No other ale has such a smack of liberty in it. Ten thousand pounds is puffing would at begin to have such an effect upon their rales. At the scene of the flogglig in Southark, a new alchouse has been opened and christened "Haynau's Retreat." In its penetralia is placed a luge arm chair, and over it is placed as an inunortal memorial, " a broomstick which was broken over Hayhan's back.21

CANADA AND THE FUGITIYE SLAVES.--Our Canadian neighbors are becoming atarined of the influx of negroes, flying from the reach of the Fugitive Slave Law, to the asylum that has been promised them in Her Majesty's American dominions. All along the frontier, they are arriving by tens, fifties, and hundreds. Many of them are penniless, and all stand in need of aid of some kind, in establishing themselves in their new homes. One would imagine from the usoul tone of the English people and press, that these fugitives would be received with open arms by the subjects of Victoria, and that the persecuted blacks who have excited so much British sympathy, and whose representatives in England have been liquized by nobility and feasted by aristocracy, would at once be welcomed as an invaluable acquisition to the Canadian population. Not so, however. The papers are already sounding the nlarm, and are hinting at the neces eity of establishing a poll tax on all blacks from the United States.

This is eminently British. Nothing could be more characteristic of the revilers of America. England hits done more to encourage the abolitionists and excite the negroes to flight, than any other na-She has in a monsure, attained her object. The negroes are flying by thousands to the soil of the British empire, confident that they will be warmly welcomed, and that the kindness promised to them will be cheerfully extended. True to his instincts, John Bull turns the cold shoulder upon them. He finds he has overshot his mark. His true object w atodisturb America, not to receive the surplus of her worst population; and he must impose a politax to shelter himself from the danger his own hands have wrought. It will never do to open his doors to such a class as the flying negroes of the States. We shall see whethor the Canadian government will sustain the inconsistencies of the Canadian people. We shall not be surprised if the asy-Ium of Canada is closed to the fugitives, and they are compelled to remain in A. merica, liable to be sent back to the slavery they have been encouraged to fly from.

Curions Calculation relating to the Building for the Great Exposition of 1851.—It is stated that the building for the exposition of 1851 will conta miles of window sashes, 100 miles putty, 54 miles of zinc guttering, 8 miles to drive under cover. The building will be wholly of glass, wood frame and from pillars. In one position the spectato will be able to see 1,000 feet before him in one unbroken view. It is believed that the building will be so superb that the public, on whose behalf the opposition has been made, will be the first to oppose its removal. A writer in the Builder states that 150 tons of putty will be required to make the building.

Let every farmer who has a sor to educate, believe and remember that sience lays the foundation of everything that is valuable in agriculture.

Daning Frat.-They had another ri diculous balloon ascent at Paris. M. Poitevin's great addoon rose in the air having besides the eronaut, three young women suspended from the car. They had wings affixed to their shoulders, and appeared as if flying in the air.

WISCONSIN ELECTION.

Southport, Wisconsin, Nov. 5.-In the cityof Southport, the uniority for C Durkee, independent Whig, over A. E. Elmore, for Congress, is 465.

A WINDFALL FOR SOMEDODY .- We I day or two since came into possession of what purported to be an extract of a very singular will, which is said has lately been proved at Liverpool, England. The testator, a Col. Daniels, it seems was formerly a sojourner, for the Summer months, at New Haven, Connecticut. In his will is the following clause

"And now, having no other near relatives or friends who need my bequest, I, give to a certain bookseller in New Haven, Connecticut, in the United States of America, all my shares in the Banks of Liverpool, England, and Dumfries, Scotland, amounting, as will appear by the certificates in my possession, and by the bank books, to four hundred thousand and sixty-two pounds currency. The name of the aforesaid legatee I do not remember; but he kept a book store South of the Toutine Hotel and in a large four or five story block, made of brick, having a bank in one of its divisions .-And my reason for this bequest is, that the bookseller showed me many marks of kindness and courtesy, and visited me during a sickness of several days. He was a married man, a member of the English Church, and if now living, is about 40 years of age, or more.

"Conicu.-- If the above bequest cannot be complied with, for lack of proof, or by reason of the death of the I hereby direct my executors to divide the shares equally between the five parties first named, in this my last will and testument."--Phil. Ledger.

Washington, Nov. 5th. The Republic of this morning contradicts the statement which has had such wide circulation relative to the President having issued orders for the concentration of troops at Boston, and further that the President has received no communication whatever from either the United States marshal at Hoston, or any other marshal, regarding any apprenended obstructions to the working of the fugitive slave law.

The Republic admits that some changes have been under in the position of the troops, but not in the direction reported, nor for the purpose alleged. Some Florida companies laive been

ordered to the North, some to Texas, and others from the North to the South. Edmund Lalayette and family are at present in the city, and stopping at the National Hotel.

HOWELL COBB.

HOWELL COBB Speaker of the House of Represcatalives

WILLIAM R KING, * President of the S note pro tempore. MILLARD FILLMOR E. BY TELEGRAPH.

Baltimose, Tuesday, Nov. 5th. A destructive fire broke out about midnight in the Western part of the city which before it was got under consumed several buildings used as carpenter, cooper, wheelwright and blacksmith shops; also five dwelling houses adjoining. The uncount of loss is not known at present.

. A party of rowdies made a descent on the ball given by the New Market fire company, and during the offray a young man, named John Michaels, received three halls in his boly, which killed him almost instantly,

Boston, Tuesday, Nov. 5th.
The large depot, used for storing freight by the Boston and Maine Radroad Company, was destroyed by fire last evening.

There was in the building at the time the five o'clock freight train bound out consisting of nearly thirty cars, all loaded with flour and other produce.

Messis. Harrod and: Fernald, dealer in mahogany, used the upper part.--Their less is between \$10,000 and \$50,-000, about one fourth of which is covered by insurance.

The train of cars was entirely consumed, and there was no insurance on them.

The building was a new one, built of brick, was five hundred feet long, and valued at \$40,000. It is mostly insured. The total loss by the conflagration is estimated at nearly \$125,000. The ori-

gia of the fire is at present unknown. The merchants of this city gave a splendid dinner to Amin Boy, at the Revero House, last evening, which passed offvery pleasantly.

Among the invited guests were Secretary Webster, Hon. Edward Everett, Win. Appleton and Robt. C. Winthron. most of whom delivered speeches approprinte to the accasion.

In Mr. Webster's remarks he said that the umbassator had come to see the United States, not a broken and disseyered Union.

TRIALS OF A HOUSEKEEPER.-We had the honor yesterday of conversing with a lady who was in the pursuit of a servant under difficulties. She related to us some of her trials, and verily our sympathics were excited by her parrative .--"I have just now," said she, " had an interview with a candidate for service, whom I called to see at her home, She is an Irish girl, very tall and coarse, with an almost usually voice. She fixed her arms akimbo, and looked down at me with a benignant air, while I humbly represented my situation to her."

"Thin it's a woman yee want to cook and make herelf useful in gineral," said she.

The lady indicated her assent. "Thin it's meself that'll shate yo, the pay's enough."

The pay, the lady replied, should be liberal, and it was for the girl to name her own price.

"Tin dollars the month, said she," is what I got last, and it was well I airned it; but, all things to me mind, I may take less from you. How many childther have yo? But three, ch? Faiks an, they'll have to lumane themsilves eliver thin. And what dose your good man follow? A clark, ch? Oh, thin, its note and tidy that he is, no doubt.—

T. COGGESHALL, P. M. of New and lavorite Polkas, Waltzes, Schothson Quicksteps, &c., just received by Oct29 WM. H. PEEK, 99 Thomes St. TRICOPHEROUS OR MEDICATED COM-POUND.

TNPALLIBLE for recogning, invigorating, and I heautifying the Hair, removing Searf, Dandruf, and all affections of the Scalp, and caring Emptions on the Skin, Diseases of the Glands, Musclea, and Integrmenta, and telleving Stings, Cats, Braises, Spraines, See, &c. With this preparation, "there is no such word as fail." The first journal in America, medical men of the highest entires, command the foreign professions, and leften who have used it for years in their dressing rooms and nurseries, admit with one accord, that, for imparting vegor, glass, luximance, and end to the hair, gradienting searf and dimeloif, healing wounds, carriar containers, spraina, dings, &c., and relieving diseases of the skin, the glands, and the muscles, it has no send among the nothingly of a composale advertised in the public prints, or used it private paretice. In cheapness as well as efficacy, there's Tricopherons is marivalled. The immune cash sales of the article, have exhibit the inventor to simply it at retail at twenty-five cents per bottle, which is from fifty to one handral per cent less than the price of any other preparation naw in use. The scientific treatise on the hair and skin centaucing valuable directions for the culture and preservation of Natura's cholocist orientent,) in which cach bottle is enclosed, is abone worth the troony.

The affairly between the anotherous which constitute the skin, and the hair origination in the skin of the heal and their duils do not circulate freely through the small vessels which fined the result is sent, attained, shedding of the hair, gray-near, dryness, and hairshouses of the lignoreal and entire laddrars as the case may be. Stimulate the skin to healthfatted in with the Tricopherons, neither largist cased, recovering their neitivity, will annihilate the disease. In all affections of the skin, and of the substitute of maskers and the given in the skin and the principal contents and hopicies of these organs, it is a sovereign remetly.

A GOOD CHANCE FOR A BAKEN FOR SMALE a lot of had containing 10-2 acres of good kind situated in the town of Whinelmason; Worcester country, Mass., it is within 8-1-2 miles distance from four very their ving manufacturing rillages; two lying at the north and the other two south. It is one of the very heri opportunities for, establishing a Bakery, there being no Bake-bed within 10 miles, the above piece of land is in corner lot containing about 12 neves, there is an application for one never, and wishing to reserve half an acre for myself, would sell the remaining 10-12 acres at the low price of four hundred dellars, one half the amount in cush, the talance may stand for a number of years if desired; the lot is well willed on three sides, on the other side is a slip of young Wood, some trees of good size, probably about 3-1 of mastere in this part. There is a fine chance to milding on the front, the land is very convenient to fence into pastures, and for mowing for horses and cows; one part is watered by a spring. There is also a large number of bearing Apple trees upon the lot. Fuel is very low, the best of soft and hard wood is sold there from \$2 to \$3 a cord. For further particulars enquire of ED-WARD BARKER, Second steret, Newport, or by post paid application to Gerdner, Mass.

A RARE UHANCE TO MAKE MONEY. A RARE CHANCE TO MAKE MONEY.

If OR SALE, cheap, an exhibition of a novel and I attractive character, which can be travelled with and exhibited for a trifling cost, it is with one exception the only one in the constry, and is offered for side, as the proprietor has other basic reas which prevents his travelling with it. It embraces more than 100 different views of writers subjects, each view covering about 100 Square feet, the whole forming a collection of writers and property of interesting subjects, and more extensive senercy than any exhibition in the country. If a young man gith a small capital, desirous to make money or being one capable of attending to it, it offers an inducement which is rarely met with I'lan cost of exhibiting it for one night is less than 25 cents. The price is \$175. Any one wishing to purchase may apply to Mr PHILIP RIDER, Thames Street.

THE modersigned, having purchased the entire interest of Silas Ward, dec., in the SOAP and CANDLE FACTORY, would give notice to their friends and the public generally, that they will continue to carry on the basiness at the old third, No. 6 Sherman street, where they will be glad to serve their friends and the public generally, with good articles, and at as reasonable prices as can be found clsewhere.

Judge M. M. Neah and, in his "Weekly Messenger," January 6, 1850,
"Dr. Hoeffard's German Bitters.—Here is a preparation which the bending preserving the Union appear to be manifement in recommending, and the reason is obvious. It is neade after a prescription functional by one of the next tecklerated physicians of modern indeas—the late Dr. Christopher Willehm Heolthad, probaser to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was empleatedly the memy of Aurolog, and therefore a medicine of which he was the inventor and tenderer may be confidently religious. [MORE EVIDENCE.]

The "Philadelphia Saturday Cazette," the best family newspaper published in the United States. The editor sate of DR. HOOFLAND'S GERMAN BITTERS:

"It is subdont that we recommend what are termed Patent Medicinus to the confidence and patrology of ear readers; and, therefore, when we recommend in Rendand's German Bitters, we wish it to be distinctly multiplead that we are not speaking of the next mass of the day, that are noised about for a lyief period and then forgotten after it has done its guilly race of nalschift, but of a nocilicinal long established, universally prized, and which has not the hearty approbation of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all pertions of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it overly in the practice of the regular Physicians of Philadelphia; than all other nostrone combined, a fart that can easily be established, and fully moving that a scientific preparation will near with their quiet approval when presented even in this form.

That this medicine will care Liver Complaint and Dyspepsia, no care can deadla after using it as directed. It acts specifically monthe storage had liver; it is preferable to calumel in all billions direases—the effect is immediate. MARSUS PATENT OIL—This is the name given to a newly invented Oil, for producing light, which has just been introduced to the pathic by Mr. Marsh. Having tried it our elver, we can speak from experienced oil, for producing light, which has just been introduced to the pathic by Mr. Marsh. Having tried it our elver, we can speak from experience, and do not besitate to award it a high order of mert. It is crainely face from guesse of arcell while beauting, and is not liable to the ton common objection of almost all barraing findle, that of explosion; it gives a brandfal and steady light, is much landerener than oil, and costs less. For a slight expense, removed myss hamps may be fitted with new taker, and the oil burnt in them.

We recommend a trial to there who would obtain a beautiful light.—(Bacton Jouenal.)

WASHING, Bleaching and Cleans.

Interluin.

The grained laboration in the level discovered from the labor is required with, and not consequenter of the labor is required to do the washing areachines and boards are dispensed with, and not consequenter of the labor is required to do the washing of a family.

The Findi is a clembal composable sufficient strength to extract all forcills substances from the cloth, by simply boding a small quantity of it with the clothers, and without the sightest injury to the most delicate fibric.

The expense is not nowe than that of the soap ordinarily used, and lessins this it will be seen that the great we at and tear of clothing consequent upon the old niethod of lard rabbing apon a board, and the use of the pounding barrel, is whelly avoided, immense saring is thus made. It is emphatically the female's forent.
